Personal Reflections and Testimonials

“I cannot say enough about how valuable this class has been to me and what value it brings to the NPO community. Each subject was presented well and provided pertinent information. We were all so fortunate to have such high level experts present at each class. I have walked away with so much knowledge but also a very strong network of resources that will help all NPOs succeed. Thank you Jeanette for all your work, encouragement and keeping it both professional and fun. Thank you each presenter for putting together thought provoking and educational programs that have had immediate impact on me. Thank you Arizona Lottery and American Express for supporting the organizations that support our community in many fundamental ways. Thank you all for taking the time to not only do it but do.”

“I thought the program was very good. The organization of breaking down and studying the different categories of being a good board member was also excellent, giving us the opportunity to listen to people of expertise in these areas. Thank you for allowing me to attend this program.”

“Through the program, I have gained a lot of insight into the foundational knowledge of being on a board. All the sessions were in depth, and the facilitators that were assigned to specialized areas did a fantastic job answering any questions and covering materials. The facilitators brought personal and professional experience to the classroom, they were able to relate but also apply many years of experience to connect with real-life scenarios. The program is going to help me with understanding how I can participate with non-profit boards. With my Native background, educationally and professionally, I always wanted to apply more awareness to Indian Country by becoming a member of a non-profit board. By developing the program, this has created the path to gain experience on non-profit boards, and use the knowledge to share with tribal boards. I look forward to working with a non-profit board and provide my insight as a new member. Thanks for the experience and insight.”

“I want to express to you my sincere thanks for all you’ve done during this most recent Business on Board Class. I found the classes to be incredibly insightful and the speakers were amazing. The advice offered was beyond my expectation of helpful in the knowledge I was seeking as a new Board Member.

I would be more than happy to help recruit for your next set of classes. I will do my best to recommend them to as many people as possible. Thank you so much! “

“This program is invaluable. I could not have learned it as objectively, accurately, and professionally with relevant content as this program. Business on Board has certainly enriched us and this gift will be used through us in the organizations where we serve. Thank you A&BC.”

“The BOB training provided by Arts & Business Council of Greater Phoenix was inspirational and educational. We now have the necessary items in the Board tool box to serve a non-profit entity. This outreach program to Native American communities, as well as other minority communities, will help diversify and enrich the arts and businesses located in the greater Phoenix area. The trainers and staff of BOB far exceeded my expectations and to whom I thank for their time and efforts. I consider it a privilege to have been a part of BOB v1 where I have met some wonderful and talented people. Thanks for everything!”
